

**For Immediate Release**

**FLIGHT SAFETY TECHNOLOGIES, INC.**  
**ANNOUNCES NAME CHANGE TO**  
**APPLIED SCIENCE PRODUCTS, INC.**

**Knoxville, TN (December 9, 2009)** - Flight Safety Technologies, Inc (FLTS.PK) announced today the completion of its legal name change to Applied Science Products, Inc. The company also announced that its stock ticker symbol has changed to APLD.PK, effective at the open of business on Wednesday, December 9, 2009.

Applied Science Products, Inc. (ASP) is a technology company dedicated to the development of products that provide unique solutions to the marketplace. ASP conducts business primarily through its wholly owned operating subsidiary, Advanced Plasma Products, Inc., (APP; www.advancedplasma products.com), which is utilizing its proprietary plasma technology for initial applications in air purification, disinfection, and materials processing and for future applications such as decontamination and sterilization.

**Safe Harbor** statement under the Private Securities Litigation Reform Act of 1995: This release contains forward looking statements identified by the use of words such as should, believes, plans, goals, expects, may, will, objectives, missions, or the negative thereof, other variations thereon or comparable terminology. Such statements are based on currently available information which management has assessed but which is dynamic and subject to rapid change due to risks and uncertainties that affect our business such as the impact of competitive products and pricing, limited visibility into future product demand, slower economic growth generally, difficulties inherent in the development of complex technology, new products sufficiency, availability of capital to fund operations, research and development, fluctuations in operating results, and other risks that may be identified and detailed from time to time. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, objectives, goals, assumptions or future events or performance are not statements of historical fact and should be considered forward looking statements. Forward looking statements involve a number of risks and uncertainties which could cause actual results or events to differ materially from those presently anticipated.
